

## React Memory 1400

The React Memory 1400 is the next level in comfort, with 1400 side-edge reinforced pocket springs and a deep layer of pressure-relieving memory foam for the ultimate combination. The memory foam uses innovative 'Respire' technology to expel air and heat from your mattress, which not only delivers the very best night's sleep but also keeps your bed ventilated and fresher for longer.

**1400 Pocket springs** provide pressure relief and perfect support for you and your partner.

**Firmer springs along the sides add strength to the mattress** and allow you to use the whole surface of the mattress as a sleeping area.

Pressure relieving memory foam enhanced with engineered perforations creates improved air circulation for a cooler night's sleep.

**A 100% natural Probiotic fabric treatment** to protect against allergens, bacteria and odours, promoting a fresh and healthy mattress.

Simply rotate the mattress regularly to help prolong the life of the mattress. **No turning required.**
