Environmentally
friendly

COMPANY PROFILE

Since 1924 Sleepzee has been designing and crafting handmade, high quality pocket spring beds. We champion traditional Artisan skills such as hand tufting and use some of the finest, most durable raw materials, which are complemented by truly advanced manufacturing techniques.

As a result, Sleepzee beds create a stunning centrepiece in any bedroom, and continue delivering exceptional comfort night after night, year upon year.

A Royal Warrant from His Royal Highness the Prince of Wales is a mark of excellence and the best of British quality, underlying Sleepzee's reputation for creating superior products and delivering excellent service.

Striving for quality and great value for its customers, sustainability is at the forefront of Sleepzee's practices. This approach dictates all of our suppliers are to be FSC certified, ensuring the timber purchased is from sustainably managed forests. We also ensure none of the waste from our factory goes to landfill.

Our dedication to helping preserve our environment and reduce our carbon emissions has resulted in us achieving a Carbon Neutral organisation status.

As part of our carbon offsetting initiative, we work with local schools in a tree planting programme, which allows us to share with young people the importance of sustainability and caring for our environment.

We use materials that include wool, silk, cashmere and horsehair, which are not only natural, sustainable fibres, but also provide superior comfort and long lasting support.

Traditional pocket springs and sumptuous natural fillings are combined with the very latest technologies to provide superior pressure relief and thermal control, regulating your body temperature throughout the night for a deeper, more relaxing night's sleep

Every design detail is meticulously checked to ensure a high quality finish and provide complete reassurance that your Sleepzee bed will offer years of superior comfort and support, backed by a 10 year guarantee. With a wide range of mattresses providing varying levels of comfort and support tailored to your needs, we are confident you will find a bed perfect for you.

GRAPHITE MEMORY FOAM

Due to its unique open cell structure, air and moisture pass through the material more easily, as Graphite helps to remove heat from the surface, and disperse it away from the body, preventing overheating for a more comfortable night's sleep.

The unique comfort of memory foam gently cradles and moulds around your body shape, providing pressure relief on hips and shoulders, whilst distributing your weight evenly, thereby improving blood circulation.

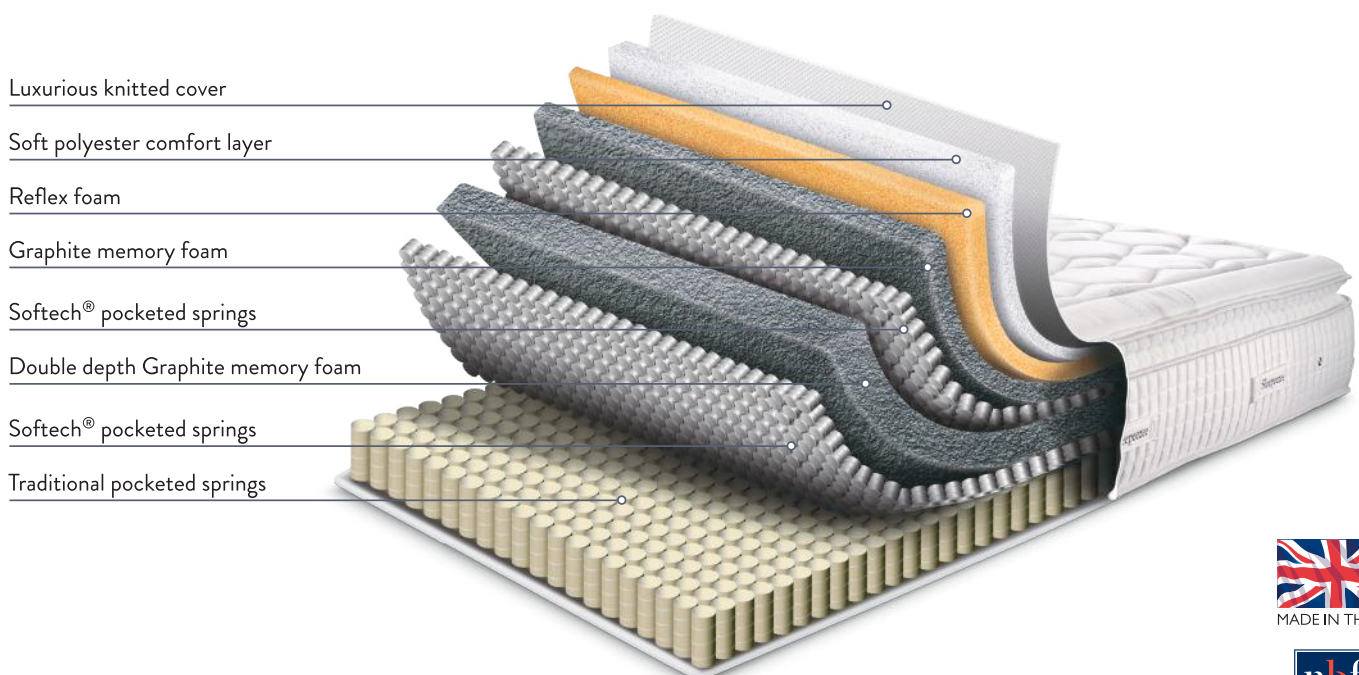

Graphite Foam also includes a non-chemical form of flame retardant.

KEY FEATURES & BENEFITS

4200 pocketed springs in the 150cm (king size) mattress	A combination of traditional and Softech® springs that move independently, contouring to your body for optimum support and posture.
Dynamic edge support	Active side support springs provide firmer, dynamic support right to the edge of the mattress helping to protect against 'roll off' during sleep.
Non turn, easy care mattress	There's no need to turn the mattress over - just rotate head to foot, with the seasons, to ensure longevity and continued comfort.
Double depth Graphite memory foam	A unique open cell structure that allows air and moisture to pass through, that also helps to remove heat from the surface, and disperse it away from the body, preventing overheating for a more comfortable night's sleep.
Soft polyester comfort layer	Providing added comfort with excellent recovery and rebound properties to give enhanced support.
Luxurious knitted cover	A soft, sumptuous finish that gives enhanced comfort and a truly luxurious feel.
Vents & flag-stitched handles	Vents promote breathability, allowing cool, fresh air to flow through the entire mattress. Handles aid rotation of the mattress when required.

EXTRAS:

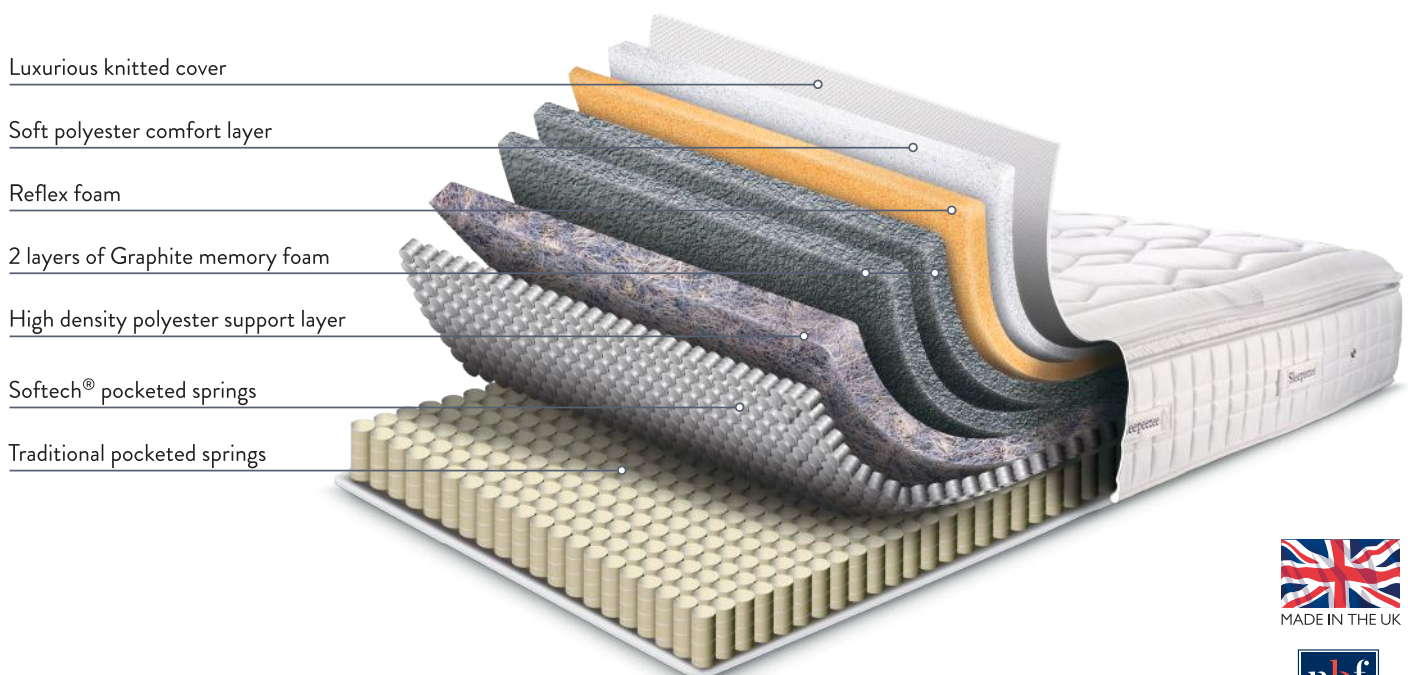

Please see details of our divan base options and headboards.

KEY FEATURES & BENEFITS

3200 pocketed springs in the 150cm (king size) mattress	A combination of traditional and Softech® springs that move independently, contouring to your body for optimum support and posture.
Dynamic edge support	Active side support springs provide firmer, dynamic support right to the edge of the mattress helping to protect against 'roll off' during sleep.
Non turn, easy care mattress	There's no need to turn the mattress over - just rotate head to foot, with the seasons, to ensure longevity and continued comfort.
Graphite memory foam (2 layers)	A unique open cell structure that allows air and moisture to pass through, that also helps to remove heat from the surface, and disperse it away from the body, preventing overheating for a more comfortable night's sleep.
High density and soft polyester layers	Providing added comfort with excellent recovery and rebound properties to give enhanced support.

*Available in 41cm & 31cm. **Ottoman 41cm only

STYLE OPTIONS:

Ashford Base:

Our most versatile divan is available at 41cm** high as either a platform top, sprung edge or firm edge***, or a 31cm** high divan as a sprung or firm edge.

Sprung bases are the most luxurious choice of divan base and feature a top layer of springs that run from edge to edge. These act as a shock absorber to offer cushioned support and a softer sleep surface for enhanced comfort.

** Height includes castors.

*** Firm edge or sprung edge not available in the small double.

Bromley Base:

Has glides fitted instead of castors for a more modern finish, and is a platform top at 40cm high (inclusive of glide).

Fabric colours:

Please see our swatch book for our current choice of attractive, modern fabric colours.

HEADBOARD COLLECTION

Add the perfect finishing touch to your Sleepeeze bed with one of our fashionable headboards. Each headboard is available in standard UK sizes to suit any of our divan bases, with a selection of 28 fabric colours to choose from.
